Completely Secure

Protect family & property

Save on insurance

Increase real estate value

DSC

A Tyco International Company

Completely Secure

Imagine a security and fire protection for people and return from school, distinguishing chance of false alarms. In comfort and dynamic con

advanced, award-winning technology

For many years DSC has been the brand of choice among security companies and homeowners in 140 countries worldwide.

Our engineers created the first microprocessor-based control panels and set the industry standards for small elegant keypads and wireless devices.

save on insurance & add value to your home

By adding a DSC security system to your home, not only will you have taken steps to protect your family and property, but you may also save up to 20% on your annual

insurance premium and may increase the value of your home on the housing market.

legendary reliability & protection

Whether you need a traditional security system for burglary and fire, or a more sophisticated system that can send vital information via the internet, DSC has a reliable security solution for you.

check on family or automate your home from afar

Need tighter control from outside your home or even from the other side of the globe? With our home automation features you are never far away.

the alarm system that offers the most advanced
possessions. It can alert you when children
guish pets from intruders, and minimize the
hagine a system that provides convenience,
ontrol.

That's PowerSeries from DSC.

If you want to control your alarm system
from a wireless key or remote telephone,
you need DSC.

If you want to regularly check activity in
your home and stay connected with your
children, nannies, elderly relatives or
check for intruders, you need
DSC.

easy to understand, even easier to use

Our customers all over
the world tell us that we
have been successful
because DSC systems
are among the easi-
est for homeowners to
understand and use.

You can choose to
protect your home
with the push of a
single button. You can
even provide different
codes for family mem-
bers, visitors and
trades people.
Your DSC installer
can teach the
entire family to use
the system in just a
few minutes.

stylish & unobtrusive

Designed for contemporary architecture,
PowerSeries offers a variety of system
controls that can blend into your surround-
ings or make a design statement on their
own. Our PK series keypads (available with
built-in wireless receivers) feature modern
contoured styling, and backlit ergonomic
buttons.

Our smaller 5511 series keypads are ideal
for economic installations or for use as a
second keypad at the back door or in your
garage.

PowerSeries keypads

Power and control are in your hands with eight wired PK series keypads including LCD versions with messages (5500), ICON fixed message (5501) and eight and 16 zone easy-to-read LED keypads. For economical and secondary usage, we recommend our 5511 series.

wireless components

The convenience and flexibility of wireless components add value to any DSC security package. These multi-purpose wireless devices can be used to arm/disarm security systems from a distance, be programmed to trigger garage door openers or activate a panic alarm.

internet & GSM alarm communications

DSC alarm communicators create fully supervised security solutions between protected premises and monitoring stations.* T-Link internet alarm communicators save you money by taking advantage of your existing network to provide secure communications over a private network (LAN/WAN) or the internet. GSM alarm communicators can be used in a backup or primary role and are ideal for those not using a traditional telephone line or are using Voice over IP (VoIP).

** Requires an account with an authorized alarm monitoring company*

PowerSeries control panels

The brain that powers your security system is the control panel. Already a world leader for decades, PowerSeries control panels are consistently being updated with the latest technologies.

two-way audio

Upon transmission of an alarm, DSC audio verification modules provide you and your family with two-way, talk/listen-in audio functionality with the monitoring station operator through speakers installed in your home.*

** Requires an account with an authorized alarm monitoring company*

smoke, motion & glassbreak detectors

DSC photoelectric smoke detectors provide reliable smoke and fire detection and are designed to reduce false alarms.

DSC lines of motion detectors (LC Series, Bravo, Encore – PIR, dual-tech, PIR and glass-break technologies) ready a security system for the unexpected by providing protection for every room, corner and corridor.

Acuity™ glassbreak detectors feature built-in intelligence that makes them “smart” enough to recognize the sound of breaking glass from other common sounds found in the home.
